

Qlamp New High Bay Light 150W

Q-HB70150

DESCRIPTION:

- **Green Lighting, ECO-friendly:** There is no harmful heavy metals such as mercury, lead and so on, no flicker, start fast, no ultraviolet rays, no attract mosquitoes, no damage because of frequent switch.
- **Safe, efficient:** Adopt internally installed wide voltage and wide frequency constant current topology isolation circuit design for power supply, small size, power conversion efficiency is greater than 88%. There is protection in open circuit, short circuit, overload, lightning surge and other security protection function, with low noise, low temperature, high efficiency, high power factor, energy saving, environmental protection, security, long lifespan.
- **Excellent heat:** Unique thermal body design, perfect combination to electrical box, effectively heat conduction diffusion, so as to reduce the temperature in the body, effectively ensuring the lifespan of the light source and the power supply.
- **Long lifespan:** More than one chip integrated single-mode group of light source, lifespan is above 50,000 hours.
