

Qlamp New Back-Lighting Panel Light 36W

DESCRIPTION:

- Back-Lighting provides even light distribution
- Higher Efficiency up to 100Lm/W
- Pure Aluminum Shell
- Integrated Power Supply
- 90% Energy Saving
- Eco-friendly no Mercury
- Dimmable Optional
- Low Maintenance

LED ceiling light is a new generation of cold light source with high luminous efficiency, low power consumption, long life span, easily controlled, free maintenance, safety and friendly environment, remote lighting, good cast performance, wide working voltage range, the light source adopts microcomputer built-in controller, can realize LED seven color change, soften color, gorgeous, varied and colorful, low loss, low energy consumption, environment friendly, suitable for shopping malls, banks, hospitals, hotels, restaurants and other public places for long time lighting.

TECHNICAL SPECIFICATION

Model No.	Power	CCT	Lumen	Base	Voltage
Q-MBD-6060-36WW	36W	2800-3200K	3500lm	N/A	AC85-275V
Q-MBD-6060-36NW		4000-4500K	3600lm		
Q-MBD-6060-36CW		6000-6500K	3600lm		
Color Rendering Index		Ra80			
Cover Optical		PC 92%			
Luminous Efficacy		100Lm/W			
Lighting source		520pcs Forepi SMD3014 Chip			
Power factor		0.95			
Driver efficacy		88%			
Beam angle		150°			
Net Weight		2.5kg			
Life span		>40,000hrs			
Working Temperature		-40°C~60°C			
IP Rating		IP44
